THE GARRISON

PORT ARTHUR IN SORE STRAITS

Soldiers would surrender but for their Leaders. Jap advance has been Resumed at Mukden

Headquarters of the Third Japanese Army before Port Arthur, November 15, via Fusian.—It is reported that the wound received by General Stoessel necessitated his confinement in the hospital. He refused to relinquish the command of the garrison and issued orders to the troops to die at their posts rather than to surrender. It is said that the spirit of the Russian troops is dampened by continuous work, and that many Russian soldiers are ready to surrender, but the officers keep them in check with loaded revolvers. Several suspected of desire to desert have been shot as an example.

Hull, November 15.—Dr. Herbert Woodhouse will represent the Russian Embassy at the enquiry. The general tenor of the evidence by the skippers of the trawlers shows that they knew nothing of Japanese boats being near. They mistook the Russian, for British, and when he hurriedly got away. Neither Woodhouse nor the Russian Ambassador hold evidence to show that Japanese torpedo boats were in the neighbourhood of Dogger Bank.

Changhai, November 15.—General Kurapatkin's headquarters.—The Japanese advance is daily expected. Large masses of their troops are moving eastward, and the Russians are expecting them to strike. A flank attack of the fortified village of Endowunulu, not far from Finchipu, was carried out brilliantly on the night of November 10 by the second brigade of the 85th infantry division. The village had been captured the same morning by the Japanese. The Japanese were completely surprised, sitting in the streets and huts. The Russians however, were forced to evacuate later.

Chetoo, November 16.—A Russian torpedo boat destroyer has just entered the harbor. It has not been communicated with owing to the roughness of the sea. It is said that a Japanese destroyer has been outside watching the movements of the vessel.

Mukden, November 14th, via Tientsin, Manchurian Army.—The Vostnik gives details of the scrupulous care shown by the Japanese for the relief and other effects of the Russian dead on the battlefield, showing how the Japanese forward such effects to St. Petersburg. This paper also announces that Kurapatkin recommends that his commanders shall observe a similar practice.

Headquarters of the Third Japanese Army.—Spies and Russians who have surrendered report reduction of rations in Port Arthur. The wounded found by the Japanese are evacuated.

London, November 16.—The Telegraph's correspondent with the Japanese on the eastern fortified ridge on October 31 says: "A terrific and continuous bombardment, night and day from the 27th to the 30th of October culminated in a wonderful noise. Countless burning shells, making their smoke into a dense, billowing mass of vapour laden with earth. Suddenly, every gun ceased

firing. The Japanese infantry rushed out from parallels on the hills ceased reverberating with the thunder of the cannon from seven separate quarters against Sihluog, Kolem and Paulung fortified ridges. Fully 32,000 dashed out pell mell, with fixed bayonets, moving standard and crying "Banzai."

AN EARLY SESSION

OF PARLIAMENT EXPECTED

Resignation of the Commissioner of Agricultural and Dairy Work. His successor

Bulletin Special Despatch. Ottawa, November 15.—During the last session of parliament Sir Wilfrid Laurier said that he was of the opinion that parliament should always be called in January. It is the intention of the Government to carry this out. The question came up at the cabinet meeting to-day, and it is understood that an effort will be made to call parliament for business on Wednesday, January 11. It is reported to-night that Professor Robertson, Commissioner of Agriculture and Dairy Work has resigned his position. If this is correct Ruddick, his assistant, will in probability be appointed to the position.

FOUND DEAD

C. P. R. SUB-CONTRACTOR

On the Wetaskiwin Branch found dead Under strange circumstances

Bulletin Special Dispatch. Wetaskiwin, November 15. — Nils Berg, foreman for Anderson & Lindbury, C. P. R. sub contractor, was found dead this morning in a gutter. It is supposed that he climbed out of a third storey window of the Driard Hotel in his sleep and was instantly killed. His head was badly bruised and his skull probably broken.

The deceased was about fifty years old, unmarried, and was a robust man. The inquest is being held to-day.

ELECTRIC VS. STEAM POWER

Elmira, N.Y., November 15.—Railroad men here are much concerned over the report that the Delaware, Lackawanna and Western Railway of-ficers after three years of study, will equip the line with electric power.

THANKSGIVING SERVICES

In the absence of the pastor, Principal Riddell will preach in McDougall Methodist church to-morrow Thanksgiving Day, at 11 a.m.

A special Thanksgiving service will be held to-morrow morning at 11 o'clock in the Presbyterian church. Rev. D. G. McQueen will preach.

MAILS FOR THE NORTH

There will be two winter mails to the far north from Edmonton this winter.

One mail for Fort Resolution and another for Fort McPherson will leave Edmonton on November 29. Each mail is limited to three hundred pounds, and no newspapers or parcels will be taken as mail matter. Letters must not weigh more than one ounce each. The Hudson's Bay Company have the contract for carrying the mail, which will go by way of Lac La Biche. Mail is made up at Edmonton for the following different places: In each case the name of the party into whose hands the packet for that particular post office will be placed is given.

Fort McMurray, Wm. Gordon.

Fort McKay, H. B. Co.'s officer.

Fort Chipewyan, R.N.-W.M.P. officer.

Smith Landing, J. Hursell.

Fort Smith, H. B. Co.'s officer.

Fort Resolution, Ed. Nagle.

Hay River, Rev. Mr. Marsh.

Fort Providence, R. C. missionary.

Fort Simpson, H. B. Co.'s officer.

Wrigley, H. B. Co.'s officer.

Norman, H. B. Co.'s officer.

Good Hope, H. B. Co.'s officer.

McPherson, R.N.-W.M.P. officer.

A second mail will be despatched to Fort Resolution this winter. It will leave on February 7.

In each case the mail carriers on their return trip will collect return mails.

Early Construction of the GTP
Montreal, November 16.—Mr. Char-

les M. Hays, president of the Grand Trunk Pacific railway company, returned home to-day from England. He has been away several weeks, during which time he had transacted considerable business on the progress of the new transcontinental railway project, and as a result of which he was able to say when interviewed at his office that as soon as the weather permits next spring the work of actual construction will begin westward from Lake Superior, and will be pushed forward simultaneously from various points between there and the Pacific coast.

He did not care to make a prophecy as to how soon the road would be open for business, but he gave assurance that a service to the wheat fields would begin just as soon as men and money could complete the task.

Mr. Hays said further that during his stay in England he had observed that Canada and Canadian affairs were being brought more and more before the attention of the people. Great interest had been manifested in the Grand Trunk Pacific railway, and for that reason the general elections here had aroused more than a passing consideration. The return of the Laurier Government to power had he felt sure been received generally with satisfaction, because it assured the building of the G. T. P., and those who had given thought to the undertaking were quite enthusiastic in its favor. The credit of Canada in the money market on Great Britain was of the best and the Government securities were in the first rank as a means of investment.

The outlook was, therefore, that there would be no difficulty in raising all the money needed to build the new railway. Referring to the North sea incident, Mr. Hays said that it had aroused an immense amount of interest, and at least up to the time that he left England, it was the chief topic of conversation.

JUST A WORD OR TWO ABOUT

PAINTING

ROSS BROS. LIMITED, have the paint that any woman or child can use and make a nice job with. Our colors are guaranteed true to the sample and as we sell a very large quantity. Our paints are always Fresh and Ready for the Brush. If you have any doubts about this call at the store and we will give you any further information you may require.

We have just received a large shipment of Berry Bros. celebrated Hard Oil

Finish and Varnish

These are the Genuine Berry Brothers goods and there is nothing better made, we sell it in any quantity.

In Plumbing and Heating

We employ only the best workmen and all our work is fully guaranteed.

It's no trouble for us to give you any information you want about your plumbing and heating. We do all kinds of plumbing, heating, tin-smithing, copper or sheet iron work

and carry an immense stock of material for the purpose. Now is the time you should look after this as there are many who put off until the last moment outside work that can't be done and we go without the work and you suffer in consequence. We still have a very nice assortment of Heating Stoves to choose from, are you supplied?

**A Concert by
Your Own
Fireside**

If you own a

"The Berliner Gram-o-phone"

And see a concert as you could never hear in any theatre or concert hall. Imagine the glorious voices of the great operatic stars—the genius of the Violin—the wizards of the Piano—Sonatas or the Coldstream Guard's Band—Comic Songs—clever Monologists. All are at your command on one programme for one evening's entertainment, or, if you will, a sacred concert.

Think what it would cost in time and money to enjoy all these, yet you can have them in your own home—every tone, every note, reproduced with clarity and life-like purity, on the Berliner Gram-o-phone at a merely nominal cost.

Price of Gram-o-phone complete with 3 Records \$16.50 to \$45

Guaranteed for five years. "It is made in Canada."

Sold on easy monthly payment if desired. Write for particulars, Catalogue and list of records.

Records:—7 inch \$5 per doz. 10 inch \$10 per doz.

Agents will exchange your old Berliner Gram-o-phone Records FREE when you buy two new Records for each one you return for exchange; for instance, you return two Records to have a set; pay for four.

Manufactured by

The Berliner Gram-o-phone Co., of Canada, Ltd. Montreal, P. Q.

ELECTRIC LIGHTS

AND THE SALE OF MOTOR POWER

The installation of the new machinery is proceeding rapidly at the Power House.

The work in connection with the installation of the new electric light machinery is being continued at the Power House.

The new 25 k. w. generator has been in use for several weeks now. It was installed direct to the shaft of the 300 h. p. engine. Connected with this is a 25 k. w. exciter which has recently been installed. Since this part of the new machinery was installed, the work has been confined chiefly to the installation of the new 600 h. p. engine and 450 k. w. generator. This work is proceeding rapidly and by Christmas it is expected that the entire new plant will be in complete running order.

The new Babcock-Wilcox boilers are practically installed, the men being engaged during the past few days in the last bricklaying work.

By Christmas the total capacity of the electric light works will be 14,000 sixteen candlepower lamps. In this way the city will have considerable motor power for sale and the council are anxious to have this subscription as soon as possible. As soon as seven-horse power has been subscribed for a day service, with the consequent ability to sell power, will be commenced. The council have already received numerous enquiries concerning the purchase of motor power and definite rates will shortly be announced at which this power can be furnished.

COLLECTION OF SCHOOL TAXES

J. K. McDonald, acting deputy attorney general and S. Chivers, Wilson, clerk in charge of the local improvement branch of the public works department of the North-West Government are in Edmonton at present in connection with arrears of taxes on school lands and lands in local improvement districts. In central and northern Alberta there were some two hundred quarter sections of land upon which there were arrears of taxes for over two years. The Territorial Government have undertaken the collection of these arrears. Before Chief Justice Sifton at the Supreme Court yesterday application was made for an order to confirm the different overseers' returns regarding the arrears of taxes. The owners of these two hundred quarter sections had previously been notified that this matter would come up at the Supreme Court yesterday. In consequence there was a large number of the owners on hand and their arrears of taxes were paid, thus putting a stop to further proceedings. As soon as the overseers' returns are confirmed, the owners of the property are again notified, and given one year in which to redeem their land on payment of redemption fees, legal expenses, and costs to the amount of \$14 per quarter section. If at the end of the year the property is not redeemed in appeal will then be made to a judge of the Supreme Court for a final order confirming vesting the land in the Government. A copy of this order will be forwarded to each registrar who will note on the title of the property that it was forfeited for taxes. The Government will then pay to the local improvement and to the school districts any arrears of taxes which they may have against the lands. The lands will be retained as a part of the public domain.

G. T. P. SURVEYS

Although the Grand Trunk Pacific surveys were begun in September of 1913, and have been continued ever since with a large force, work is still being pushed energetically all the way from Winnipeg to the mountains. The country is being thoroughly covered with survey work, so that the company will not only have the best line, but will know they have the best possible line. The parties are working between Edmonton and the mountains. A. S. Going is working from Edmonton to the Athabasca. Featherstone is working from the Athabasca to the Grand Prairie, and another party is working in the Peace river country from Grand Prairie to the mountains. East of Edmonton J. Armstrong, at one time city engineer, is working eastward, and another party is working westward from Hanley station in the Prince Albert branch of the G. T. P. R. Last winter three parties were working over the same stretch of country. The company are bound to have a first class road with not more than a 4-10th grade. The grade is the essential, and when that is secured, the question of how much can the distance be shortened without sacrificing too much to cost construction.

Feature of the surveys for the Grand Trunk Pacific is that the Beaver Hills, which occupy some thirty townships, and which lie immediately east of Edmonton, covering a length of about thirty-five to forty miles, from north to south, by an equal distance from east to west, and which were always supposed to be an impassable barrier in the way of a line of railway, coming from the east direct to Edmonton, have been traversed by Grand Trunk Pacific surveys to such purpose that a feasible line or lines have been found almost direct through the hills from Edmonton to the east end of Cooking Lake and thence to the south end of Beaver Lake. No one has good lines been laid in this region the hills, but the hills have been found to be suitable for settlement, there is not more than four or five miles in the centre of the hills, between the settlement which has gone on from Edmonton and that which has gone on from Beaver Lake. The hills, which might have been supposed to be an impassable barrier, are really only a rough surface resting on a level base, and offer no serious obstruction to railway construction, any more than they do to subsequent operation. It is wonderful how far out the first deer of a locality may be. Not many years ago the Beaver Hills was practically an unknown country, although surrounded by settlement, and the idea of undertaking to run a line of railway through them would have been thought madness. Now there is a well established and well travelled road across them, the 14th base line, and appearances indicate that the great transcontinental railway will run right through them. The survey line across the Saskatchewan at Clover Bar follows up the valley of the Old Man's creek, then crosses over to the valley of the Point Lepre Creek then passes close to the north-western side of Cooking Lake, then follows Hanging Lake and creek out of the hills, and passes by the south-westerly portion of Beaver Lake. This survey may not be final, but the line is understood to be quite practicable from every point of view.

EXCHANGE OF GOOD WISHES

Washington, November 15.—Prince Fushima, a near relative of the Mikado, who is visiting America, called at the White House to-day. He conveyed the good wishes of Japan which were reciprocated by the President.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 26, which has not been some-tended, or reserved, to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, (Ottawa), the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for someone to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres sub-tenanted.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands, in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART, Deputy Minister of the Interior. In addition to the Free Grants to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

HAVE YOU SEEN

Those new Vases in our Crockery Department. They are selling rapidly and if you wish to take advantage of these bargains you must come early.

REVILLON BROTHERS STORES.

AN INDEPENDENT VIEW

The Minneapolis Journal has the following article on the results of the recent Federal elections in Canada:—

To an outsider it would seem as if the Canadian people were inconstant and fickle, indeed, had they seen fit to give power to the Conservatives, with their eyes open to what the Liberal administration has achieved. Never was Canada so prosperous as now. Never were the reins of power in such wise and firm hands. Never were the resources of the Dominion government so utilized for the general welfare of the country.

The record of the Liberal administration in the matter of immigration alone was sufficient to have kept it in power, assuming that the Canadian electorate is fairly intelligent. Before the Liberals came into power in 1896, there was no immigration into Canada from the United States. Such a thing was considered absurd. Now the American immigrants number about 50,000 a year. Before 1897 the total annual immigration into Canada was only 30,000; now it is 130,000. In the past ten years, seven of them being under Liberal rule, the foreign trade of Canada has doubled. In many other respects the country has shaken off the slow-going ways that used to characterize it and has fairly bristled with energy and progressiveness under the government of the Liberals.

With the Liberals returned to power with such a large majority, gaining even in manufacturing Ontario, it may be taken for granted that there is no popular demand in Canada for a high protective tariff. This does not mean that the Canadians are clamoring for a lower tariff or for tariff revision; it simply means that they are largely indifferent on the subject. Sir Wilfrid Laurier is there-

fore in a position to adopt almost any tariff program he desires, confident that the public will approve it. With Laurier in such a position, a government on this side of the line that was inclined to move first and energetically in favor of reciprocity would doubtless be met half way. We are disposed to think that during his present administration, President Roosevelt will turn his attention to the subject of reciprocity with Canada. If he does, something substantial will be accomplished; unless Ottawa, which once begged for reciprocity, should take the position so long occupied by Washington and reject all advances on the subject.

Lending Libraries in the West

Ottawa, Nov. 12th.—A meeting of the Central Board of the Aberdeen Association was held at Government House Friday when her excellency the Countess of Minto, presented a scheme for establishing lending libraries in the North-west, a proposal which was adopted, and will be put in operation as soon as the details are perfected. The libraries will be supplied by the Victoria League, through the Aberdeen Association. The Victoria League, of which Mrs. Drummond is the London president of the Canadian branch, is an English organization for supplying good English literature to sparsely settled districts of the colonies, and is the main source of the supply of the Central Branch of the Aberdeen Association.

LOCAL

—Regina has built a large hockey and curling rink.

—Mr. Beringer has moved his music studio to the Heimack Block.

—Messrs. Laird and Christman, of Spruce Grove have dissolved partnership. Mr. Christman will continue the business alone.

—The Edmonton High School football team defeated the Alberta College team yesterday afternoon after a close game by a score of 1 to 0.

—T. A. Gregg, founder and editor of the Edmonton Post, since deceased, arrived on Monday night on a visit to his stepson, Frederick Fitzgerald.

—A telephone line has been built from Morinville to St. Emile, twelve miles further north. It was opened on November 3 in time to transmit the election returns.

—The telephone line has been extended from Spruce Grove to Tony Plain centre. The work was completed on Saturday last by Mr. McKay and party. The distance from Spruce Grove is about eight miles. A telephone has not yet been installed, but will be shortly.

—A special Thanksgiving service will be held in the Baptist church tomorrow evening commencing at 8:30 o'clock. A programme of vocal and instrumental music will be given. Mr. Stutchbury, Mr. G. H. McLeod, Mr. Froude and others will sing solos. Besides music by the Mandolin and Guitar Club, there will be quartettes, trios, etc. Miss Edith Bellamy will give two readings. A collection will be taken up at the door, the proceeds to go to the aid of the building fund of the church.

CURING THE FILLER

THE Pharaoh filler I select in Manicargua-- Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak-- allowed to remain until eleven o'clock in the morning-- until they are properly wilted-- then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

James Gayle SMITH GRANBY, P.Q.
